June 2021

Due to COVID-19, Senior Services of Effingham County office and activity center are closed to the public until July 1, 2021. If you need assistance, please call 217-347-5569 or toll free 1-800-283-4070.

Yes, we are planning a "**SOFT**" reopening for our Effingham Activity Center on July 1<sup>st</sup>. ECCOA's reopening plan is based upon Illinois' Reopening Bridge Phase Guidelines, CDC recommendations and IDoA Guidance. All plans are subject to change and the Activity Center may need to be shut down again for the safety of all.

Please see and be prepared to follow the guidelines for reopening on page 3 of this Sunset Times newsletter. We are so excited to be able to open our doors to the public again for some socialization, fun and games, even if there are new rules, regulations and procedures that everyone must follow.

As a precaution to the Coronavirus, the Dine With A Doc program in Effingham will be cancelled until further notice in the best interest of protecting our seniors. Thank you for understanding. Please feel free to pass this information along.

### **Emergency Home Response Service: (EHRS)**

EHRS is a Community Care Program core service provided to improve the independence and safety of clients in their own homes and help reduce the need for nursing home care.

Emergency Home Response Service (EHRS) is a 24-hour emergency communication link to assistance outside the home for older adults with documented health and safety needs and mobility limitations. This service is provided by a two-way voice communication system consisting of a base unit and an activation device worn by the participant that will automatically link the older adult to a professionally trained staffed support center. For more information on Emergency Home Response Services in your community, contact Senior Services at 217-347-5569.

EHRS offers 24-hours-a-day help at the touch of a button, installation at no cost to the client, free adaptive activation devices, and a list of first responders chosen by the client. To receive this service, an older adult must qualify for the Community Care Program. This service is now available for cell phones too.

#### Tip of the month:

If you suspect you've encountered financial abuse ...

Don't be afraid or embarrassed to talk about it with someone you trust. You are not alone, and there are people who can help. Doing nothing could only make it worse. Keep handy the phone numbers and resources you can turn to, including the local police, your bank (if money has been taken from your accounts), and Adult Protective Services. To obtain the contact information for Adult Protective Services in your area, call the Eldercare Locator, a government sponsored national resource line, at: 1-800-677-1116, or visit their website at: https://eldercare.acl.gov.

### I've got my shot... now what?

According to the Center for Disease Control, this is what you should keep doing for now, if you've been fully vaccinated:

- •You should still take steps to protect yourself and others in many situations, like wearing a mask, staying at least 6 feet apart from others, and avoiding crowds and poorly ventilated spaces. Take these precautions whenever you are:
  - In public
  - •Gathering with unvaccinated people from more than one other household
  - •Visiting with an unvaccinated person who is at increased risk of severe illness or death from COVID-19 or who lives with a person at increased risk
- •You should still avoid medium or large-sized gatherings.
- •If you travel, you should still take steps to protect yourself and others. You will still be required to wear a mask on planes, buses, trains, and other forms of public transportation traveling into, within, or out of the United States, and in U.S. transportation hubs such as airports and stations. Fully vaccinated international travelers arriving in the United States are still required to get tested within 3 days of their flight (or show documentation of recovery from COVID-19 in the past 3 months) and should still get tested 3-5 days after their trip.
- •You should still watch out for symptoms of COVID-19, especially if you've been around someone who is sick. If you have symptoms of COVID-19, you should get tested and stay home and away from others.
- •You will still need to follow guidance at your workplace.
